Summary

Motivated software engineer student eager to improve technical skills, adapt quickly to new technologies, and continuously enhance expertise.

Skills

FrontEnd (React / Angular) **.FrontEnd** (Java / Spring Boot / Node.js / Express)

Database: (MySQL / MongoDB) **.Methodology:** (Scrum) **.Tools:** (Swagger / Docker / Github)

Education

University of Tekup(2023-2025(expected)), Computer engineering diploma

University of Tekup(2019-2023), Integrated preparatory cycle for engineering studies

Academic project

Touristic Services Project, Node.js, Express, Angular, MongoDB Jan 2024 to Mai 2024

- Backend development using Express, a Node.js-based framework and build robust APIs.
- Frontend development using Angular, built on top of TypeScript, used for creating single-page web applications

E-learning Project, Spring Boot, Angular, MySQL sept 2023 to jan. 2024

- Led the backend development, utilizing Spring Boot, to build robust APIs.
- Developing a secure application using Spring Security where I incorporate JWT(JSON Web Token).

Car rental agency, Java, Java Swing 1 March. 2023 to Mai. 2023

- I acquired technical skills related to Java programming, including the use of the Swing library to create graphical user interfaces (GUI).
- implementation of data structures and the development of algorithms to solve problems.

Property management, Python, PyQt5, Mysql March 2022 to Mai. 2022

- I learned to identify and solve programming problems, such as debugging errors in code or finding efficient solutions to complex programming challenges..

Language

English French
